

1 inch jasper morrison

With 1 Inch, Jasper Morrison taps into Emeco's heritage in hand crafting recycled aluminum, and leverages its signature strength, light weight, and sustainability to create a versatile family of seats. The frame is handcrafted using Emeco's time-tested material and 77-step process used to make the original 1006 Navy Chair since 1944. The bare bones of a good chair. A one inch size, square extruded aluminum tube was selected for the strength-to-weight ratio, using the least amount of material to yield the maximum amount of strength, while achieving the desired comfort and aesthetics.

Materials

Also available upholstered
For outdoor applications use anodized aluminum with polypropylene

Dimensions

1 INCH STACKING CHAIR
