

ace jean marie massaud

Ace is a very attractive high back armchair that has tremendous visual lightness, which looks wonderful at home and in commercial installations. Aware that there was no other armchair combining a decent, comfortable support with such a light, slender design, Jean-Marie Massaud has managed to carve a unique niche market. The solid oak base with or without arms is a contemporary benchmark thanks to the subtlety and the lightness of its shapes along with its extraordinary comfort. Different fabrics can be mixed and matched on the seat and back as well as zip and base colours. A new icon for the home or contract use in timeless and pleasant places.

materials:

Base in solid oak in natural, cognac, ash or wenge or calibrated steel lacquered in thermoset epoxy polyester in white or black. Seat in fabric or leather.
