

# Delta Collection Jorge Pensi Design Studio

The Delta table has a remarkably smart appearance. It is made to fit in with exterior or interior contemporary spaces. The injected aluminium base and extracted aluminium column make it ideal for use in the open air, due to the weather-resistant properties of these materials. The folding top and the design of the base enable the tables to be lined up one against the other to save space when they are not in use. There is an option for different finishes to the aluminium parts as well as the table tops, which mean that the Delta adapts to any architectural space.

features:

Fixed, Collapsible Top, Fixed for Glass
