RANDOMISSIMO

Designed by Neuland Industriedesign

Randomissimo represents the involution of the Random concept. It accompanies the ripe sign of the present collection towards its total subtraction, turning it into a simple graphic line, an apostrophe on the wall. A piece of furniture for personal items: featuring a reduced overall size, it is changeable, playful, complementary and modular. Randomissimo embodies so well MDF Italia's identity principles: subtraction, formal and technical simplicity and strong emotional imprint. A product that immediately unveils, through its playful modularity and colours, the capability of developing small aggregations, as well as endless compositions with a surrealistic spirit.

FRAMEWORK

Shelf made of 2.5 mm thick steel sheet, powder coated in matt white and graphite grey.

There are two formal types (module A and module B) that, either by combination or specific project, can develop large-sized and high impact lay-outs.

BACKRESTS

The shelf is complete with backrests coated with artificial fibre canvas, complete with magnetic coupling.

Colours available are: white, black, grey, dove grey, red, yellow, blue.
