

## olo francesco rota

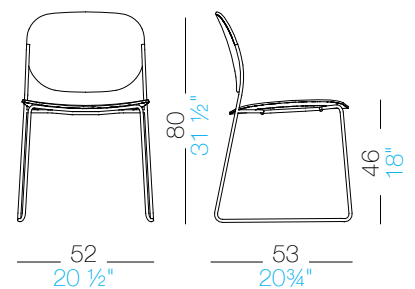

Olo is a chair that succeeds in being delicate and lightweight and yet solid and stackable. Olo's broad, open dimensions make it inviting and comfortable. With soft, round-edges and wooden supports, this is a timeless utility piece that carries echoes of 1950s design.

Olo is stackable up to 10 pieces and is on a sled base. Its seat and back are curved plywood available in various wood finish options or upholstered in fabric. Its tubular frame is in a matt chrome finish or in powder coated steel.
