

blío neuland, paster and geldmacher

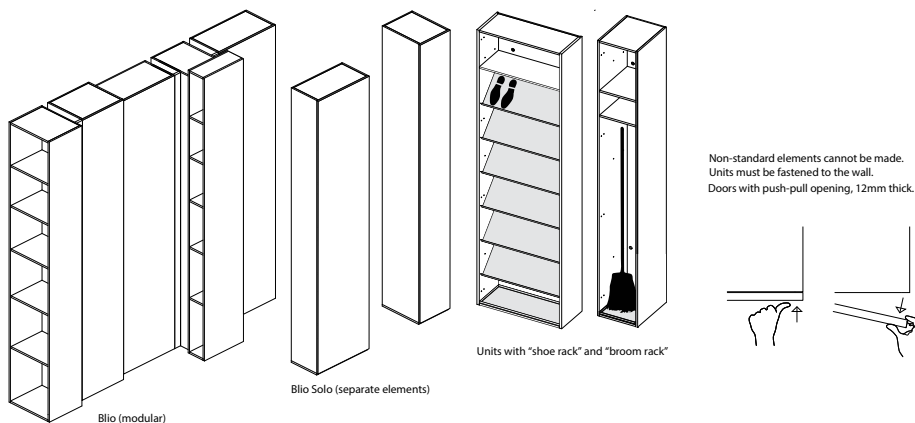

Blio is a modular bookcase that combines the minimal nature of the colour white with a basic and relaxing feel of a library. The Blio is an arrangement of modular elements with different widths and depths, creating a large amount of surface and storage space whilst maintaining accessibility. The compartments of the library can be opened laterally, aided particularly by the front doors that open and close without a handle thanks to the push-pull system. But it is not just the library inspired feel that makes this piece great, is in fact a perfect movable piece suitable to hold a variety of furniture items. Blio can be transformed into a shoe rack or used simply as storage space for any item you wish. The modules consist of different elements that can stand alone or be combined to create a variety of looks to suit your desire. Superbly designed, with its sleek lines and air of mystery inspired by libraries, Blio is a bookshelf that will give a unique feel and huge increase in storage space to your home or office

materials:

finish: MDF with white lacquer

finish for shoe rack shelves: beige lacquered steel.
