

## lobby stokke austad

The decisive and rigorous lines of the Lobby armchair contrast with the dynamism of its profile, a sense of movement which is accentuated by the juxtaposition of curved and straight lines. The seat itself is supported by 4 slender legs which give the impression of lightness and agility.

The armchair, which is available completely upholstered either in fabric or leather, is born from the desire to create a product that creates a space for itself. The extruded armrests delineate an area into which the user enters when he sits down. The same armrests also offer comfort and an inviting space whilst adding a distinctive character to the chair. The form of the chair is clear and decisive with a strong profile and clean lines while the inside is softer and moulded to accommodate the user. Lobby is created from fire-resistant cold formed foam over an internal structure in metal. Lobby is also available with contrasting chrome legs.

### materials:

fire resistant, expanded foam with metal internal structure and upholstery in fabric or leather.

### dimensions:

27.6"W x 29.7"D x 29.2"H/ 18.1"SH
