

mr. & super impossible philippe starck

A most inviting chair with an organic design that inspires comfort, neatness and style. Mr. Impossible is the combination of sophisticated design and advanced plastic processing design. It takes on a new technological challenge with highly sophisticated processing techniques that consist in the welding of two shells: the translucent structure and the seat, in a full-colored and translucent version, are joined together making them indestructible and guarantee a truly surprising design effect. The seal of the two oval shells gives the plastic a new bi-color and three-dimensional effect because it welds a transparent and a colored surface together without interruption, revolutionizing the perception of the material which becomes rich and hyper-technological.

Materials

Transparent or batch-colored polycarbonate, frame in transparent polycarbonate.

Color options:

Super Impossible Opaque	Mr. Impossible Transparent Seat					Opaque Seat
E8/white-black	B4/crystal 42/ochre 43/purple 44/red orange	47/white	48/black
