

## nori bartoli design

Nori is a modern design table which can either be fixed or extended with multiple possibilities of finishes and colours. The legs are available either painted or in anodised aluminum, creating sharp lines to really create an impact in your home and a great talking point for guests. The tabletop extremely thin and lightweight, but still very resistant, thanks to the high quality materials used. The table will work in all types of décor and can even become a desk design with the insertion of a cable hole. The colour choices mean that no matter what style your home is, you can find the perfect table to suit, and the modern table design will fit into any room in the house. The options of different leg choices also add to the design element and really makes it a unique and interesting design concept.

materials:

leg finish:

## nori slatted bartoli design

With their characteristic design, the legs of Nori tables are combined with a staved top made of Teak. FSC certified to respect the environment, which is 20 cm wide and 2 cm thick. The top can be left in its natural color, since over time it acquires an unmistakable silvery shade, or it can be treated with oil to resume its original color. It is also available with drawn aluminium extensions, housed in a special compartment.

materials:

leg finish:

anodised aluminium, white, black or olive green lacquered aluminium  
Fenix-NTM London grey lacquered aluminium

finish of top:

teak

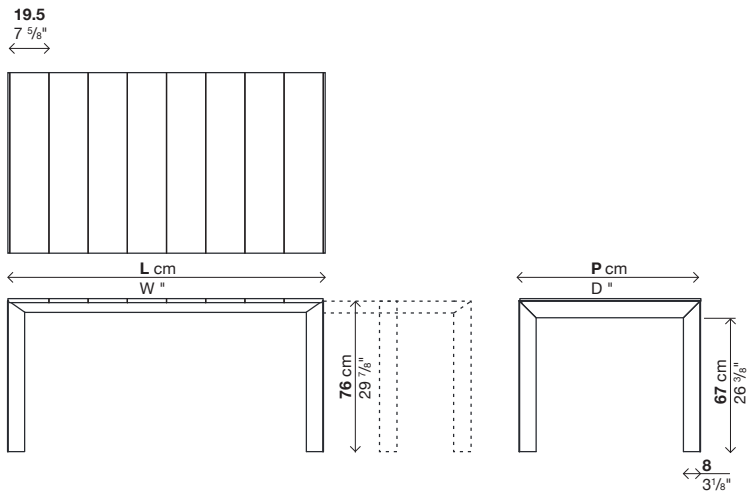

finish of extensions:

anodised aluminium. lacquered aluminium.
