 Seat Available with fabric seat cover (PO/BC/SU)
 VC/CR Table with metal structure
 2L-top in painted glass LN- top in laminate

Vad Table by Luca Nichetto

The same softness in the shapes of VAD is present in the table characterized by a good top with a truncated cone jointed to the metal support through fine bends. The soft look of Vad table makes it a useful accessory for many uses such as in public spaces for work, entertainment and meeting points.
