

## **kosmos** dirk wynants

The Kosmos round parasol has an ingenious design and opens horizontally like a fan, offering excellent wind resistance (wind force 6 on the Beaufort scale). This designer parasol hangs low enough to provide plenty of shade, and is perfect for placing next to the Kosmos table and seat combination or any other furniture. Two hidden magnets keep the parasol open. In very windy weather, the magnets will release their grip. The Kosmos has a simple leather strap that keeps the open parasol slightly inclined so that water can flow off.

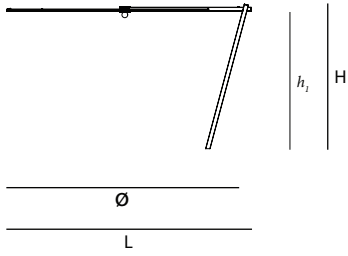

### materials:

All the materials used are of superior quality and extremely durable. Stainless steel guarantees a long lifespan. This designer parasol is made from high-tech polyester which is very robust and UV resistant.

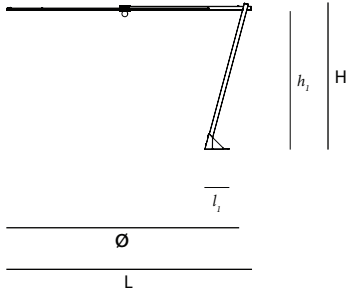

High-tech polyester fabric colour options:

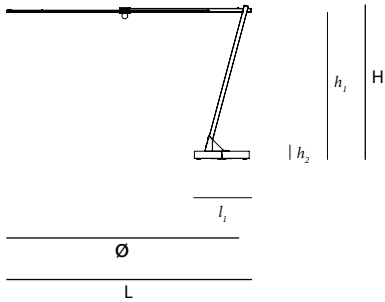

dimensions:
