

the veteran's - bird chaise

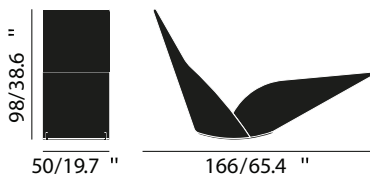

tom dixon

The very rare and unusual furniture typology of the rocking chaise longue is explored here in a monolithic form, carefully balanced to encourage a gentle rocking motion with its gentle curves and reduced silhouette.

The Bird chaise is a bold sculptural statement that is destined to bring extra colour and shape, movement and comfort into lobbies, breakout areas and homes. Bird was first made in 1990 in galvanised steel in Tom Dixon's south London Metal shop and subsequently produced under license to Cappellini. We are now proud to bring the big Bird home to roost in its original home.

The Bird Chaise is available in a wide range of colours, in fabric or leather.
