An attractive stackable chair that can be used indoors or outdoors, thanks to its materials. The seat and back are in polypropylene, whereas the legs, in an upside-down V-shape, are in pressure die-cast aluminum with a weatherproof epoxy lacquer finish. Fabric seat cushion available.

materials:

Frame: Epoxy lacquer die-cast aluminum in white, black, beige and water grey.

Seat/back: Polypropylene in white, black, beige and water grey. Fabric seat cushion version.
