

hara victor vasilev

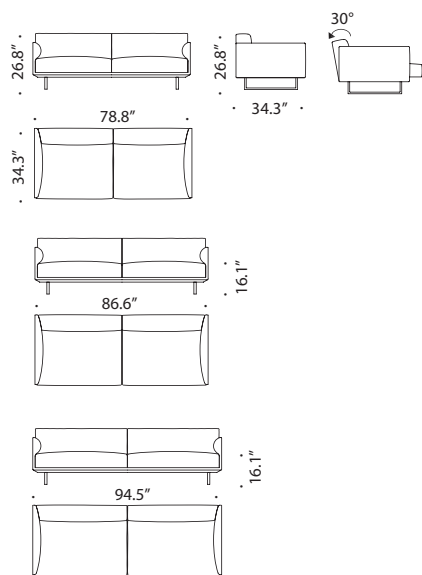

Technological innovation within a thorough and minimal design. A sofa with a mainly domestic seat: a simple, rigorous and essential design, that incorporates a mechanism that allows for highly precise electronic adjustment of both the backrest and the seat, independent of each other.

materials:

varnished metal supporting structure, upholstery in variable density expanded polyurethane, and cover in polyester wadding. Sled base made of aluminium die-casting with polished or painted finish in the following colors: matte white or matte anthracite grey.
