

## sushi 12 bartoli design

The minimalist charm of the extendible Sushi table can be seen in this outdoor version equipped with the same extension device as the indoor one, but with a Fenix or Dekton top to guarantee even higher resistance while keeping an extremely slender profile. The tray that houses the extensions is in tough thermoformed plastic, and is equipped with perforations for rainwater runoff. It has an aluminum frame with stainless steel fixings to ensure it remains unchanged over time.

### materials:

Aluminum frame with stainless steel fixings. Legs in anodized aluminum, lacquered aluminum in white, London grey, Bromo grey, black or Ventus grey. Top in Fenix NTM black edge in Kos white, London grey, Bromo grey or Ingo black. Dekton top in Zenith white, Ventus grey or Aura (digital marble). The tray that houses the extensions is in touch thermoformed plastic.

# dimensions
